

MQ-4 MODULE

MQ-4 Module is used in gas leakage detecting equipment in family and industry, are suitable for detecting of CH₄ ,Natural gas,LNG. Avoid the noise of alcohol and cooking fumes and cigarette smoke. The module gives out the concentration of the gases as a analog voltage equivalent to the concentration of the gases. The module also has a on-board comparator for comparing against a adjustable preset value and giving out a digital high or low.

Description

Specifications

- Voltage: 5V
- Detecting concentration :200-10000ppm Methane (CH₄)
- Analog and Digital Output
- Digital Out is High or Low based on a adjustable preset threshold.
